

PRODUCT PRESENTATION

CE-FORCE SILICON

Product	CE-FORCE SILICON
Document type	Product Presentation
Category	Liquid potassium silicate fertiliser
Document code	CEON-CE_FORCE_SILICON-Product-REV04
Revision / Issue	04 / 17 July 2026

A concentrated potassium silicate formulation that supplies soluble silicon and potassium to strengthen plant tissues and improve tolerance to abiotic stress.

Why this product

- Supports stronger cell walls and stems
- Helps reduce lodging and water-stress impact
- Supports fruit firmness and surface quality
- Provides simultaneous potassium and silicon nutrition

Declared nutrient profile

Guaranteed parameter	Declared content
Water-soluble Potassium Oxide (K ₂ O)	8.0% w/v
Water-soluble Silicon Dioxide (SiO ₂)	20.0% w/v

Application positioning

Soil/fertigation: Use according to crop programme. Foliar: Use only after compatibility and crop-safety test. Exact rate and timing must be adapted to crop stage, deficiency status, soil and leaf analysis, climate, water quality and local label approval.

Professional-use principles

- Use preventively where a known deficiency risk exists or correctively after diagnosis.
- Carry out compatibility and crop-safety tests before new tank mixtures.
- Ensure even dilution, adequate agitation and correct spray-water volume.
- Keep full batch, application and traceability records.

Commercial and regulatory disclaimer

Product claims and specifications in this presentation are based on the CEON catalogue. Registration, final label wording, packaging and permitted use claims may vary by country.
