

CERTIFICATE OF ANALYSIS TEMPLATE

CE-FORCE ZINC

Product	CE-FORCE ZINC
Document type	COA Template
Category	Liquid zinc and amino-acid fertiliser
Document code	CEON-CE_FORCE_ZINC-COA-REV04
Revision / Issue	04 / 17 July 2026

Batch no.	_____
Manufacturing date	_____
Expiry date	_____
Sample date	_____
Laboratory reference	_____

Analytical specification and batch results

Parameter	Specification	Batch result	Method
Water-soluble Zinc (Zn)	6.0% w/v	To be entered from batch test	ICP-OES / validated in-house method
Sulphur (S)	3.0% w/v	To be entered from batch test	Validated in-house method
Free Amino Acids	3.0% w/v	To be entered from batch test	Validated in-house method

Physical checks

Appearance	Product-specific liquid	To be entered
Homogeneity	Uniform; free from unacceptable separation	To be entered
pH	Approved batch specification	To be entered
Density	Approved batch specification	To be entered

Release statement

This template must be completed only from the actual laboratory record for the identified batch. Blank fields are intentional. Do not publish or sign as a batch certificate until the results have been reviewed and approved by authorised Quality Control personnel.
