

TECHNICAL DATA SHEET

CE-FORCE ZINC

Product	CE-FORCE ZINC
Document type	TDS
Category	Liquid zinc and amino-acid fertiliser
Document code	CEON-CE_FORCE_ZINC-TDS-REV04
Revision / Issue	04 / 17 July 2026

1. Product description

A zinc-rich liquid fertiliser with sulphur and free amino acids for correction of zinc deficiency and support of vegetative growth, flowering and fruit development.

2. Guaranteed analysis

Guaranteed parameter	Declared content
Water-soluble Zinc (Zn)	6.0% w/v
Sulphur (S)	3.0% w/v
Free Amino Acids	3.0% w/v

3. Key agronomic benefits

- Corrects and prevents zinc deficiency
- Supports enzyme activity and auxin metabolism
- Promotes vegetative recovery and flowering
- Amino acids support rapid nutrient uptake

4. Recommended use

Soil/fertigation reference rate: 15-20 L/ha. Foliar reference rate: 200-300 mL/100 L water. Apply according to crop requirement, nutrient analysis, local registration and professional agronomic advice. Do not exceed the label rate.

5. Compatibility and mixing

Before tank mixing, conduct a small-scale jar test. Add to a partially filled tank under agitation. Avoid mixing concentrates directly. Check water quality and local compatibility guidance.

6. Physical and handling characteristics

Form	Liquid concentrate
Colour / odour	Product-specific; verify against approved batch specification
Solubility	Designed for dilution in water
Packaging	1 L, 5 L, 10 L, 20 L and other approved commercial packs

7. Storage and shelf-life

Store tightly closed in the original container, in a cool, dry and ventilated area, protected from direct sunlight, frost, heat and incompatible materials. Shelf-life must follow the approved batch and label documentation.

8. Regulatory note

This TDS is based on the CEON catalogue declaration. Final label, classification, permitted claims and application rates must comply with the law of the country of sale.
