CE-FORCE CAL

Product	CE-FORCE CAL
Document type	Product Presentation
Category	Liquid calcium-boron-amino acid fertiliser
Document code	CEON-CE_FORCE_CAL-Product-REV04
Revision / Issue	04 / 17 July 2026

A concentrated calcium chloride solution with boron and plant-origin amino acids for correction of calcium deficiency and reinforcement of cell walls, fruit firmness and quality.

Why this product

- Corrects calcium deficiency rapidly
- Supports cell-wall strength and fruit firmness
- Boron supports flowering and sugar transport
- Amino acids improve nutrient uptake and stress recovery

Declared nutrient profile

Guaranteed parameter	Declared content
Water-soluble Calcium Oxide (CaO)	15.0% w/v
Water-soluble Boron (B)	0.20% w/v
Plant-origin Free Amino Acids	3.0% w/v

Application positioning

Soil/fertigation: 20-25 L/ha. Foliar: 150-500 mL/100 L water. Exact rate and timing must be adapted to crop stage, deficiency status, soil and leaf analysis, climate, water quality and local label approval.

Professional-use principles

- Use preventively where a known deficiency risk exists or correctively after diagnosis.
- Carry out compatibility and crop-safety tests before new tank mixtures.
- Ensure even dilution, adequate agitation and correct spray-water volume.
- Keep full batch, application and traceability records.

Commercial and regulatory disclaimer

Product claims and specifications in this presentation are based on the CEON catalogue. Registration, final label wording, packaging and permitted use claims may vary by country.
