

PRODUCT PRESENTATION

CE-FORCE NZN

Product	CE-FORCE NZN
Document type	Product Presentation
Category	Liquid nitrogen and EDTA-chelated zinc fertiliser
Document code	CEON-CE_FORCE_NZN-Product-REV04
Revision / Issue	04 / 17 July 2026

A highly concentrated nitrogen-zinc liquid fertiliser developed for vigorous vegetative growth, enzyme activity, protein synthesis and correction of zinc deficiency.

Why this product

- Promotes vegetative growth and leaf formation
- Corrects zinc deficiency
- Supports enzyme and protein synthesis
- Useful before flowering and during fruit development

Declared nutrient profile

Guaranteed parameter	Declared content
Total Nitrogen (N)	15.0% w/v
Urea Nitrogen (NH ₂ -N)	15.0% w/v
Water-soluble Zinc (Zn)	6.0% w/v
EDTA-chelated Zinc (Zn)	6.0% w/v

Application positioning

Soil/fertigation: 20-30 L/ha. Foliar: 100-200 mL/100 L water. Exact rate and timing must be adapted to crop stage, deficiency status, soil and leaf analysis, climate, water quality and local label approval.

Professional-use principles

- Use preventively where a known deficiency risk exists or correctively after diagnosis.
- Carry out compatibility and crop-safety tests before new tank mixtures.
- Ensure even dilution, adequate agitation and correct spray-water volume.
- Keep full batch, application and traceability records.

Commercial and regulatory disclaimer

Product claims and specifications in this presentation are based on the CEON catalogue. Registration, final label wording, packaging and permitted use claims may vary by country.
