

TECHNICAL DATA SHEET

CE-FORCE K-PLUS

Product	CE-FORCE K-PLUS
Document type	TDS
Category	High-potassium effervescent powder fertiliser
Document code	CEON-CE_FORCE_K_PLUS-TDS-REV04
Revision / Issue	04 / 17 July 2026

1. Product description

A highly concentrated water-soluble potassium powder with phosphorus, designed for fruit enlargement, ripening, colour development, sugar accumulation and improved storage quality.

2. Guaranteed analysis

Guaranteed parameter	Declared content
Water-soluble Potassium Oxide (K ₂ O)	56.0% w/w
Water-soluble Phosphorus Pentoxide (P ₂ O ₅)	6.0% w/w

3. Key agronomic benefits

- Very high potassium concentration
- Improves fruit colour, Brix and quality
- Supports nutrient transport and storage
- Helps plants tolerate heat, cold and drought stress

4. Recommended use

Soil/fertigation reference rate: 1-5 kg/ha. Foliar reference rate: 150-400 g/100 L water. Apply according to crop requirement, nutrient analysis, local registration and professional agronomic advice. Do not exceed the label rate.

5. Compatibility and mixing

Before tank mixing, conduct a small-scale jar test. Add to a partially filled tank under agitation. Avoid mixing concentrates directly. Check water quality and local compatibility guidance.

6. Physical and handling characteristics

Form	Liquid concentrate
Colour / odour	Product-specific; verify against approved batch specification
Solubility	Designed for dilution in water
Packaging	1 L, 5 L, 10 L, 20 L and other approved commercial packs

7. Storage and shelf-life

Store tightly closed in the original container, in a cool, dry and ventilated area, protected from direct sunlight, frost, heat and incompatible materials. Shelf-life must follow the approved batch and label documentation.

8. Regulatory note

This TDS is based on the CEON catalogue declaration. Final label, classification, permitted claims and application rates must comply with the law of the country of sale.
