

TECHNICAL DATA SHEET

CE-FORCE POWER 0-38-38

Product	CE-FORCE POWER 0-38-38
Document type	TDS
Category	High phosphorus-potassium soluble powder fertiliser
Document code	CEON-CE_FORCE_POWER_0_38_38-TDS-REV04
Revision / Issue	04 / 17 July 2026

1. Product description

A concentrated water-soluble phosphorus-potassium fertiliser for rooting, flowering, fruit set, ripening and quality improvement without additional nitrogen.

2. Guaranteed analysis

Guaranteed parameter	Declared content
Total Nitrogen (N)	0% w/w
Water-soluble Phosphorus Pentoxide (P ₂ O ₅)	38.0% w/w
Water-soluble Potassium Oxide (K ₂ O)	38.0% w/w

3. Key agronomic benefits

- High phosphorus and potassium with no nitrogen
- Supports flowering, fruit set and ripening
- Promotes root and reproductive development
- Suitable when vegetative growth must be controlled

4. Recommended use

Soil/fertigation reference rate: Use according to crop programme. Foliar reference rate: Use according to crop programme. Apply according to crop requirement, nutrient analysis, local registration and professional agronomic advice. Do not exceed the label rate.

5. Compatibility and mixing

Before tank mixing, conduct a small-scale jar test. Add to a partially filled tank under agitation. Avoid mixing concentrates directly. Check water quality and local compatibility guidance.

6. Physical and handling characteristics

Form	Liquid concentrate
Colour / odour	Product-specific; verify against approved batch specification
Solubility	Designed for dilution in water
Packaging	1 L, 5 L, 10 L, 20 L and other approved commercial packs

7. Storage and shelf-life

Store tightly closed in the original container, in a cool, dry and ventilated area, protected from direct sunlight, frost, heat and incompatible materials. Shelf-life must follow the approved batch and label documentation.

8. Regulatory note

This TDS is based on the CEON catalogue declaration. Final label, classification, permitted claims and application rates must comply with the law of the country of sale.
