

TECHNICAL DATA SHEET

CE-FORCE CU

Product	CE-FORCE CU
Document type	TDS
Category	Liquid copper fertiliser
Document code	CEON-CE_FORCE_CU-TDS-REV04
Revision / Issue	04 / 17 July 2026

1. Product description

A liquid copper nutrient formulation for correction of copper deficiency and support of enzyme activity, chlorophyll formation and plant structural strength.

2. Guaranteed analysis

Guaranteed parameter	Declared content
Water-soluble Copper (Cu)	5.0% w/v

3. Key agronomic benefits

- Rapidly available copper nutrition
- Supports chlorophyll and enzyme systems
- Helps strengthen plant tissues
- Suitable for soil and foliar application

4. Recommended use

Soil/fertigation reference rate: 20-30 L/ha. Foliar reference rate: 150-300 mL/100 L water. Apply according to crop requirement, nutrient analysis, local registration and professional agronomic advice. Do not exceed the label rate.

5. Compatibility and mixing

Before tank mixing, conduct a small-scale jar test. Add to a partially filled tank under agitation. Avoid mixing concentrates directly. Check water quality and local compatibility guidance.

6. Physical and handling characteristics

Form	Liquid concentrate
Colour / odour	Product-specific; verify against approved batch specification
Solubility	Designed for dilution in water
Packaging	1 L, 5 L, 10 L, 20 L and other approved commercial packs

7. Storage and shelf-life

Store tightly closed in the original container, in a cool, dry and ventilated area, protected from direct sunlight, frost, heat and incompatible materials. Shelf-life must follow the approved batch and label documentation.

8. Regulatory note

This TDS is based on the CEON catalogue declaration. Final label, classification, permitted claims and application rates must comply with the law of the country of sale.
