ULTIMATE MN-ZN

Product	ULTIMATE MN-ZN
Document type	Product Presentation
Category	Liquid manganese-zinc fertiliser
Document code	CEON-ULTIMATE_MN_ZN-Product-REV04
Revision / Issue	04 / 17 July 2026

A concentrated manganese-zinc liquid fertiliser for correction of Mn and Zn deficiency and support of chlorophyll formation, flowering and fruit quality.

Why this product

- Corrects combined manganese and zinc deficiency
- Supports chlorophyll and photosynthetic activity
- Promotes flowering and fruit development
- Useful across field, orchard and horticultural crops

Declared nutrient profile

Guaranteed parameter	Declared content
Water-soluble Manganese (Mn)	4.0% w/v
Water-soluble Zinc (Zn)	5.0% w/v

Application positioning

Soil/fertigation: According to crop programme. Foliar: According to crop programme. Exact rate and timing must be adapted to crop stage, deficiency status, soil and leaf analysis, climate, water quality and local label approval.

Professional-use principles

- Use preventively where a known deficiency risk exists or correctively after diagnosis.
- Carry out compatibility and crop-safety tests before new tank mixtures.
- Ensure even dilution, adequate agitation and correct spray-water volume.
- Keep full batch, application and traceability records.

Commercial and regulatory disclaimer

Product claims and specifications in this presentation are based on the CEON catalogue. Registration, final label wording, packaging and permitted use claims may vary by country.
