

TECHNICAL DATA SHEET

ULTIMATE MN-ZN

Product	ULTIMATE MN-ZN
Document type	TDS
Category	Liquid manganese-zinc fertiliser
Document code	CEON-ULTIMATE_MN_ZN-TDS-REV04
Revision / Issue	04 / 17 July 2026

1. Product description

A concentrated manganese-zinc liquid fertiliser for correction of Mn and Zn deficiency and support of chlorophyll formation, flowering and fruit quality.

2. Guaranteed analysis

Guaranteed parameter	Declared content
Water-soluble Manganese (Mn)	4.0% w/v
Water-soluble Zinc (Zn)	5.0% w/v

3. Key agronomic benefits

- Corrects combined manganese and zinc deficiency
- Supports chlorophyll and photosynthetic activity
- Promotes flowering and fruit development
- Useful across field, orchard and horticultural crops

4. Recommended use

Soil/fertigation reference rate: According to crop programme. Foliar reference rate: According to crop programme. Apply according to crop requirement, nutrient analysis, local registration and professional agronomic advice. Do not exceed the label rate.

5. Compatibility and mixing

Before tank mixing, conduct a small-scale jar test. Add to a partially filled tank under agitation. Avoid mixing concentrates directly. Check water quality and local compatibility guidance.

6. Physical and handling characteristics

Form	Liquid concentrate
Colour / odour	Product-specific; verify against approved batch specification
Solubility	Designed for dilution in water
Packaging	1 L, 5 L, 10 L, 20 L and other approved commercial packs

7. Storage and shelf-life

Store tightly closed in the original container, in a cool, dry and ventilated area, protected from direct sunlight, frost, heat and incompatible materials. Shelf-life must follow the approved batch and label documentation.

8. Regulatory note

This TDS is based on the CEON catalogue declaration. Final label, classification, permitted claims and application rates must comply with the law of the country of sale.
